The Truth is Our Guiding Beacon

Our individual Missions, grounded on the background from which each comes, with our personal history, heritage, cultural belief systems and more, is dedicated in Gratitude unending and complete towards the Source of All, filling our hearts, minds, and souls with profound and reverent thanks.

We respect each communicant's Quest for fulfillment through harmonious and resonant Frequency, Actualized honest intentionality, loving Consciousness, and Truth.

Therefore, we embrace the melding of physical and metaphysical stewardship of this earth.

In gratitude to the Source Of All, we believe that whatever we choose, our choices should be those that are beneficial to life on earth and motivated by Lovingkindness.

Our beliefs are simple: *Being harmless* and respecting Informed Consent, we stay conscious of what is best for ourselves, all loved ones, all species, and this blessed planet, Mother Earth.

Communicating our Beliefs through our Expressive Association.
